GENERAL INFORMATION

Jose Rizal University is a non-stock, non-profit, non-sectarian private Philippine educational institution, which was founded in 1919 by Vicente Fabella, the first Filipino certified public accountant. The University offers courses of study at the elementary, high school, collegiate, law and graduate levels. Its course offerings for the elementary and secondary levels are recognized by the Department of Education (DepEd), and the Commission on Higher Education (CHED) for the tertiary levels.

MISSION OF THE UNIVERSITY

Jose Rizal University aims to develop its students to become useful and responsible citizens through the effective transfer of relevant knowledge and desirable values.

JRU CORE VALUES

Our core values define how we behave individually and collectively, as inspired by the ideals of the founder. A Rizalian is:

- **Responsible.** A team player who is focused, attentive, gives one’s best and is committed to the goals of the University.

- **Considerate and Courteous.** A fair and caring person fully aware of other’s rights, feelings and ideals.

- **With Integrity.** A person who acts truthfully, morally and ethically.

OBJECTIVES OF THE HIGH SCHOOL

The primary objectives of JRU High School are (1) to teach a secondary education curriculum that will prepare the students for adult life, with emphasis on the development of communication and computational skills as well as the reasoning prowess; (2) to inculcate the concept of representative government, national sovereignty, and the Filipino way of life, (3) to develop vocational and technological efficiency; and (4) to develop the desirable traits of integrity, self-
discipline, diligence and the work ethics, intellectual curiosity, and love of God and country.

**HIGH SCHOOL CURRICULUM**

The High School offers the four-year secondary curriculum as approved by the Department of Education (DepEd) and Level II accredited by Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA), and modified to suit the global educational policies and priorities of JRU High School. High school classes are conducted for 80 minutes each for English, Math, Science and Business Technology 3 and 4 and 40 minutes each for the rest of other subjects.

English is used as the medium of instruction in all subjects except Filipino. It is the University’s belief that complete familiarity with the English language is critical to a more effective social and economic role of the child. The High School is very conscious of the importance of a good command of the English language in secondary education, and has taken the option of shortening the four years of Values Education into the first two years and devoting the class time saved into additional English subjects. In addition, the High School Division initiated steps in improving our subjects by including the Computer Aided Instruction (CAI) in teaching all our subjects.

**LOCATION AND FACILITIES**

Jose Rizal University is located at 80 Shaw Boulevard, Mandaluyong City, occupying an area of one and a half city blocks. It is accessible through public transport passing directly in front of and around the school. It’s high school building is completely surrounded by concrete walls located inside the spacious campus which is modern, well-ventilated, and reinforced concrete multi-storey buildings.

The air-conditioned University library contains a wide selection of books and periodicals as well as a variety of supplementary reading materials. The reading room, separate from the library book stacks,
provides the proper atmosphere for study and research. The library collection contains more than 70,000 titles and is still increasing.

Another five-storey building houses the science, computer and speech laboratory rooms and the air-conditioned auditorium.

The computer classrooms contain 54-position computer facilities, which are more than adequate for every student in each classroom.

The University has a modern speech laboratory designed to facilitate good and efficient communication systems between the teacher and the students, thus providing a modern way of employing the “Listen and Learn” principle.

The high school building (Building M) houses the modern laboratories and spacious library.

The school cafeteria provides hot and nutritious meals at reasonable prices, in addition to snacks and refreshments.

The University Bookstore has a complete stock of the required textbooks, school uniforms, and school supplies offered at reasonable prices. However, students may, if they so prefer, obtain their textbooks and other school supplies elsewhere.

Professional guidance counseling is available at the Guidance and Testing Office for individual or group counseling for academic and/or personal problems. Individual and group testing are also available upon request. Any high school student may request for an appointment with the guidance counselor.

A physician, dentist, and nurse are on duty during school hours at the Medical and Dental Clinic. Students are given a physical check-up during the school year, and any defect or infirmity is immediately reported and acted upon as appropriate.

The University has an air-conditioned ecumenical prayer room where students are welcome to pray.

The athletics and physical education facilities are located at the new Gym Building (Bldg G) - Annex Campus 3 where students can enjoy playing basketball and other indoor sports.
ADMISSION REQUIREMENTS

New students interested to enroll at the high school division should submit an Application for Admission (JRU Form 1), properly filled out, together with his Report Card (Form 138) or other entrance credentials. Application forms may be obtained at the Office of the High School Principal, in Room M-201. A new student seeking admission to the High School must have obtained satisfactory grades in deportment.

In the absence of any school record which may serve as a basis for admission, the applicant may submit a certified statement signed by the principal of the school last attended about the loss of school records indicating the subjects passed; or the guardian of the applicant may sign a waiver form acceptable for temporary enrolment and available at the Office of the High School Principal indicating therein a commitment date when to submit the student’s official school record.

A student who receives not more than three failing grades at the end of the school year should enroll during the summer term to make up for his deficiencies; otherwise, he will either be required to repeat the curriculum year in which he has been enrolled, or will be allowed to take only the subjects which he has failed.

A foreign student should bring his Alien Certificate of Registration upon enrolment, as well as the approval for enrolment and the evaluation of units earned abroad as certified by the Department of Education.

Jose Rizal University High School reserves the right to decline any application, which does not conform to its admission policies. All students are subject to the policies, rules and regulations of the school and are bound, among others, by the provisions and representations made in this announcement. However, such stipulations shall not be considered as constituting an irrevocable contract between the student and the school as it is understood that the school reserves the right to modify, change, alter or revise them.

By enrolling in the University, students/parents/guardians acknowledge and agree that they shall abide by all the policies and
procedures of the University regarding, enrolment acceptance and retention; all school fees payment and collection; withdrawal or dropping policies; and all those policies and procedures contained in this General Information Manual or any other Policies and Procedures Manuals now existing or will come to existence within the duration of their enrolment.

Student/parents/guardians further acknowledge and agree that should they violate any of these policies, the University has the absolute right to enforce sanctions and penalties upon them as called for in these Manuals, including barring student from taking examinations and/or being dropped from the enrollment rolls if necessary.

Classes begin on Monday June 4, 2011. The preferential dates of registration are as follows:

- Fourth year level: May 7
- First year: May 8
- Second year: May 9
- Third year: May 10
- Transfer students and open enrolment: May 11 onwards

Students enrolling after these preferential dates are not assured of enrolment due to space constraints, hence, they are advised to come as scheduled to avoid non-admission or closed preferred sections.

For further information concerning admission, please see the Principal or Assistant Principal in Room M-201, which is open from 7:00 in the morning to 6:00 o’clock in the afternoon from Mondays through Fridays and 8:00 a.m. to 5:00 p.m. during Saturdays.

Telephone Nos. : 531-8031 to 35
Fax No. : 531-6087
Email : highschool@jru.edu
Website : www.jru.edu

**Enrolment Procedure**

Generally, the enrollee is required to present his enrolment credentials to the teacher in charge of registration. The student may start his/her on-line registration using the AIMS Student Module. Enrolling student may ask for assistance from enroller present in the enrolment
area. Upon approval of the credentials, students availing of discounts/scholarships must proceed to the Student Accounts Office (for application and approval) before payment. The student then goes to the teller for payment in Room A-21 presents the enrolment permit and makes the necessary payment. The amount printed in the official receipt should tally with the actual payment.

Keep in mind that preliminary registration and payment of fees should be done on the same day to be assured of space in the subjects enrolled, otherwise, reservations may be cancelled.

A student is considered officially enrolled only after: (1) the tuition fee for at least two months plus; and (2) all pertinent miscellaneous fees have been paid, as evidenced by a validated Official Receipt.

The admission card is evidence of the student’s enrollment and should be presented to the subject teachers for their signatures on the first day of classes. The card should be kept with care as proof of his official enrolment in the University.

**TRANSFER STUDENTS**

The minimum residence requirement for graduation from the High School of Jose Rizal University is two curriculum years. The University admits transfer students only up to third year. Cases involving transferees other than those mentioned above will be considered on a case-to-case basis. Application should be made with the High School Principal.
CURRICULUM

The JRU High School Curricula for all curriculum years meet the national requirements but are further strengthened to enhance instruction reflective of the knowledge, skills and attitudes suited to the ever-changing needs of students and society. In terms of the number of contact hours, the JRU HS curricula offer more compared to DepEd’s Basic Education Curriculum.

**TOTAL 10.5 10.5**

Fourth year students are required to see their section advisers before the end of June 2011 for the re-evaluation of their subjects required for graduation; failure to do so may cause the students to be ineligible for graduation.

### Class Hours, Attendance and Excuse Slips

Classes are conducted from 7:00 o’clock in the morning to 5:40 o’clock in the afternoon on regular school days, with appropriate study and snack/lunch breaks. Every Monday morning, students with first-period classes are required to come fifteen minutes earlier to participate in the flag-raising ceremony. From Tuesday through Fridays, students sing the National Anthem and recite the Filipino Patriotic Pledge before starting their first period classes.

---

TOTAL 10 10
High School students are not allowed to go out of the campus from 7:00 o’clock in the morning until their last period in the morning or afternoon.

Punctual attendance is required of all students. Students who come to class later than five minutes after the ringing of the bell will be allowed to enter the classrooms only with an excuse slip from the Office of the Principal. Three consecutive days tardiness are counted as one unexcused absence. A student who has incurred absences, excused and/or unexcused, equivalent to twenty per cent (20%) of the prescribed DepEd number of school days for the school year may not be given credit for the particular subjects.

After one or two consecutive absences, a student is required to present to the teacher concerned a letter of excuse written and signed by the parent, together with his ID card or residence certificate. If a student is absent for more than two consecutive days, the letter of the parent with the same requirement should be submitted to the Principal or Assistant Principal to obtain an official excuse slip for re-admission to his classes. Excuse slips are issued at the Office of the Principal during the first three periods of every session.

The parent should immediately notify the Principal, if a student is sick. A student who is absent for one week or more can be re-admitted only when accompanied by the parent in securing the excuse slip from the Principal.

**CO-CURRICULAR ORGANIZATIONS**

Co-curricular organizations related to different subject areas are organized to enhance the interest of the students in related subjects, to improve their skills in various fields, and to promote harmonious social relationship in the school campus. Organizations correlated with other curricular areas provide the students enriching learning experiences.

Another objective of these organizations is to foster orderliness and cleanliness in the school environment. During class hours the officers and members see to it that corridors are free of loitering students and monitor the orderly movement of students along the stairways and
corridors. Close coordination is maintained between the Mandaluyong City and civic officials, and the students and faculty on community-related activities.

**SCHOOL UNIFORMS**

Students are required to wear the school uniform while in school. Those who are not in uniform are not admitted to their classes, instead they are advised by their subject teachers to stay in the library until their dismissal time, to accomplish any class work they may have missed.

The prescribed JRU High School uniform for girls consists of a white blouse with JRU monogram sewn over the left breast pocket, and the JRU-striped white, blue and gold skirt. For boys, the prescribed uniform is a white polo shirt with the JRU monogram sewn on the left breast pocket of the shirt, and long black trousers. The pattern, prescribed items and clothing materials are available at the JRU Bookstore. Both male and female students are required to wear black shoes and white socks.

The prescribed PEHM uniform for both boys and girls are obtainable from the Bookstore.

**TEXTBOOKS**

All high school students are required to obtain a complete set of the prescribed textbooks, the lists of which are posted outside the Bookstore. The University Bookstore sells textbooks and school supplies at reasonable and competitive prices, but students are free to obtain their textbooks and school supplies elsewhere, if they so prefer.

**SCHOOL ACTIVITIES**

To supplement classroom work, actual field excursions and educational tours with parental consent and under the supervised direction of class advisers are undertaken by the students in all curriculum year levels. Instructional techniques are supplemented by a variety of audio-visual materials housed in a separate audio-visual room.
The student body of the high school publishes a high school student organ, The Scroll, completely managed and edited by the students. Students are encouraged to write and publish original articles in this school organ. They are given the opportunity to express themselves freely through writing. Managing the school paper imbues the students’ minds with the significance of responsibility and work, and plays an important role in the development of a mature studentry. A yearbook, The Blue and Gold, is a project of, and published annually by, the seniors.

Quiz shows in all subject areas are held to reinforce the learning acquired in classrooms and enhance mental alertness.

The University has units of the Boy Scouts and the Girl Scouts of the Philippines. The scouts activities are highlighted by an annual hiking and camping under the supervision of responsible scoutmaster-faculty members. Boy and girl scouts participate actively in the University community programs.

The High School has an active Student Catholic action unit. Holy Mass is celebrated every first Friday of the month at the school campus. Religious instruction is conducted on a voluntary arrangement to interested Catholic students. The prayer room in Room C-14 is open during schools hours, where the students of all denominations may meditate.

Literary and musical programs, convocations featuring noted resources persons, and other social gatherings are frequently held at the campus for further educational and cultural enrichment.

The homeroom provides an opportunity for closer teacher-student relationship, more effective practice of social group living, and better group guidance activities.

Complete computer facilities are provided for the student’s hands-on experience to reinforce the lessons learned in ordinary classrooms.

Study activities in Mathematics, Science and English are conducted by academic organizations before monthly examinations to help students
who have inadequate skills in the 3 subjects without any financial obligation on their part.

**PHYSICAL EDUCATION, HEALTH AND MUSIC (PEHM)**

PEHM (Physical Education, Health and Music) is offered to the first, second, third year and fourth year students and includes physical and health education, scouting and music.

The annual intramural league is an important component of the physical education program. It is designed to encourage as many students as possible to participate in a competitive manner in several group sports. For their own protection, students who participate are required to secure inexpensive student insurance during the season.

Jose Rizal University is a member of the National Collegiate Athletic Association (NCAA), and high school students are given the opportunity to enjoy the benefits of its membership. Qualified students are encouraged to participate in the NCAA Junior Division sports of basketball, chess, football, softball, swimming, tennis, track and field, and volleyball.

The three-day University Week Celebration held in February is a significant event in the school with maximum student participation as a major objective. It features art exhibits, literary and musical programs, field demonstrations, parlor games, quiz shows and other activities; thus enhancing the students varied interests and talents.

**SCHOLARSHIPS**

To encourage deserving students to enrol and finish their studies at JRU, La Pluma and Academic Scholarships are made available.

All incoming freshmen in the High School division who have been certified as belonging to the top 10 in academic ranking by their Elementary Principal from any school, including JRU are automatically qualified as “La Pluma” scholars for their first two (2) school years in JRU. These scholarships can only be availed of, if the students enroll during the school year immediately following their graduation.
All other incoming freshmen from any school, including JRU may apply for Academic scholarship, except the “La Pluma” scholarship by taking and passing the JRU scholarship qualifying examinations.

Further details on Academic scholarships are available from the Guidance and Testing office.

The editor-in-chief and the managing editor of the high school publication, The Scroll, are entitled to full and half scholarships valid for one year respectively. Likewise, the CAT Corps Commander is entitled to full scholarship valid for one school year. Scholarships are also awarded to band members and deserving athletes and cheerleaders.

Several scholarships, including stipends, are awarded to deserving students under the sponsorship of Jose Rizal University Alumni Association (JRUAA). Further information on this matter may be obtained from the High School Principal.

Honor Graduates

Basically, a graduating student with normal study load who obtains a final general average of 85% or above, with no quarterly and final grade lower than 80% in any subject is considered qualified for inclusion in the honors list. The final general average of the student in the third and fourth year is computed to obtain the average, which becomes the basis of determining his rank in the list of honors.

A candidate for graduation honors must have met the minimum two-year residence requirement. Furthermore, a student who is aspiring to become a valedictorian or salutatorian should not obtain any quarterly and final grade lower than 80% in any subject during his two years of schooling in the high school.
TUITION AND OTHER FEES

The tuition fees for the school year for each individual student will depend upon the number of periods enrolled:

<table>
<thead>
<tr>
<th>Periods</th>
<th>Published Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>One period</td>
<td>₱ 4,530.00</td>
</tr>
<tr>
<td>Two periods</td>
<td>₱ 6,080.00</td>
</tr>
<tr>
<td>Three periods</td>
<td>₱ 8,180.00</td>
</tr>
<tr>
<td>Four periods</td>
<td>₱10,040.00</td>
</tr>
<tr>
<td>Five periods</td>
<td>₱12,310.00</td>
</tr>
<tr>

<tr>
<td>Eleven periods</td>
<td>₱20,370.00</td>
</tr>
<tr>
<td>Twelve periods</td>
<td>₱20,520.00</td>
</tr>
<tr>
<td>Thirteen periods</td>
<td>₱20,660.00</td>
</tr>
</tbody>
</table>

A “prompt payment discount” of 10% of the above tuition fee is given if full payment of all tuition fees and miscellaneous fees is made on or before the opening of classes (Prompt Payment Discount Period). However if payment is made through credit card, the “prompt payment discount” is reduced to 7.5%.

Students who will pay full tuition fees and miscellaneous fees after the prompt payment discount period but on or before the 11th day from the opening of classes can no longer avail the prompt payment discount and will be charge the full published rate.

Students who are not able to pay tuition and miscellaneous fees in full on or before 11th day from the opening of classes shall automatically be considered as paying on “installment basis” and shall be charged the installment rates.

Students who pay on installment basis shall be charged an “incomplete down-payment fine” of ₱500.00 if full down payment is not made on or before 11th day from the opening of classes.
The schedule of Installment payments may be obtained from the student accounts Office at Room A-14.

Miscellaneous fees, which may be charged for the school year, depending upon the individual pupil, include the following:

**Miscellaneous Fees:**

- ID revalidation fee: $120.00
- ID and testing fee: $380.00
- Development fee: $1,590.00
- Energy fee: $2,160.00
- Library fee: $610.00
- Laboratory: $510.00
- Computer laboratory fee (per periods): $1,040.00
- Speech lab: $810.00
- Co-curricular activities: $1,150.00
- FSA fee (foreign students only): $15,000.00
- Transferee application fee: $150.00
- PE fee: $200.00
- Certification/G.M.C.: $120.00
- Honorable Dismissal: $350.00
- Form 137 (per set): $180.00
- Authentication (per doc.): $80.00
- Change of subject, per application: $400.00
- Late enrolment fine: $1,000.00
- Duplicate enrolment permit: $50.00
- Graduation fee: $1,000.00

Discounts are likewise allowed for brothers and/or sisters. However, students will enjoy no discounts in tuition fee for brothers and/or sisters if all tuition and miscellaneous fee are not fully paid by March 16, 2013.

The school discourages and penalizes late enrolment. Any student, whether old or new, who applies for admission and is admitted after the first day of classes that is, Monday, June 4, 2012, will be considered as a late enrollee and charge a late enrolment fine. Any old student or one with brothers and/or sisters studying at Jose Rizal University but who is a late enrollee loses any priority in admission to the High School, and will treated like any new student.
Please note that students with delinquent accounts shall be subject to penalties. These include those students who do not settle their final obligation to the University on time, and those who issue “bounced checks”.

**Withdrawals and Refunds**

A distinction is made between students who officially withdraw and students who drop. Withdrawal are permitted within thirty days after the beginning of classes provided the university is notified promptly in writing on JRU Form 106 and the request is approved by the Registrar and the Vice President for Finance. When no written notification is made, the student is considered drop, and charge in full for the entire semester, regardless of the actual attendance.

Subsequent to enrolment, if the student officially withdraws his/her enrollment for any reason, prior to the start of classes, the University shall refund all payments already made, but will charge the student the amount of One Thousand Pesos (Php 1,000.00) as processing fee. If the student withdraws only portion of his/her enrolment, prior to the start of the classes, the University shall refund the portion of the tuition fee and any directly corresponding miscellaneous fees pertaining to the subject withdrawn, that has already been paid by the student provided that the student has properly filed the appropriate JRU Form for dropping of subjects. The student shall be charged the appropriate amount for dropping of subjects, except when the withdrawal of the subject is due to the failure of a prerequisite for that subject, his knowledge having been obtained after his enrollment due to failure of the faculty to submit the final grade on time. In which in case, the student shall not be charged any amount.

If a student officially notified the University of the withdrawal of his/her enrolment or any portion of his/her enrolment within fifteen (15) calendar days after the beginning of classes, the student shall be charged 20% of the total published tuition and miscellaneous fees due or total installment tuition and miscellaneous fee due depending on their mode of payments. This shall be in addition to the appropriate charges imposed for dropping the subjects, except when the withdrawal of the subject is due to the failure of a prerequisite for that subject, his knowledge having been obtained after his enrollment due to failure of the faculty to submit the final grade on time. In which in case, the student shall not be charged any amount and the University shall refund that portion of the tuition fee and any directly corresponding
miscellaneous fees pertaining to the subject withdrawn, which has already been paid by the student. This policy shall be imposed regardless of whether or not the student has been attending his classes.

If a student officially notified the University of the withdrawal of his/her enrolment or any portion of his/her enrolment more than fifteen (15) but not more than thirty (30) calendar days after the beginning of classes, the student shall be charged 50% of the total published tuition and miscellaneous fees due or total installment tuition and miscellaneous fee due depending on their mode of payments. This shall be in addition to the appropriate charges imposed for dropping the subjects, except when the withdrawal of the subject is due to the failure of a prerequisite for that subject, his knowledge having been obtained after his enrollment due to failure of the faculty to submit the final grade on time. In which in case, the student shall not be charged any amount and the University shall refund that portion of the tuition fee and any directly corresponding miscellaneous fees pertaining to the subject withdrawn, which has already been paid by the student. This policy shall be imposed regardless of whether or not the student has been attending his classes.

If a student officially notified the University of the withdrawal of his/her enrolment, or any portion of his/her enrolment more than thirty (30) calendar days after the beginning of classes, the student shall be charged 100% of the total published tuition and miscellaneous fees due or total installment tuition and miscellaneous fee due depending on their mode of payments. This shall be in addition to the appropriate charges imposed for dropping the subjects, except when the withdrawal of the subject is due to the failure of a prerequisite for that subject, his knowledge having been obtained after his enrollment due to failure of the faculty to submit the final grade on time. In which in case, the student shall not be charged any amount and the University shall refund that portion of the tuition fee and any directly corresponding miscellaneous fees pertaining to the subject withdrawn, which has already been paid by the student. This policy shall be imposed regardless of whether or not the student has been attending his classes.

For the summer session of any division, the policy on refunds, either on the cash basis or on the installment basis, will remain the same as for the regular session, except for the difference in grace periods. For the grace period of fifteen (15) calendar days after the beginning of classes during the regular session, the summer equivalent will be two (2) calendar days; where it was thirty (30) calendar days, the summer equivalent will be five (5) calendar days.
These equivalents will be valid for both collegiate and high school summer sessions.

**ID Cards**

Student identification cards (IDs) are issued at the beginning of the school year. The IDs should always be attached to the shirt or blouse of a student while in school. Presentation of the ID card is required, among others, when entering and leaving the campus, borrowing athletics equipment, securing examination slips, availing of medical/dental services, and applying for the use of school facilities. Students should be careful with their ID’s as any student who loses his identification card pays a replacement fee before he is issued another one. They can obtain temporary gate passes only pending recovery/replacement of lost ID, if they are accompanied to the office by their parents. Temporary gate passes are good for a duration of one (1) week only.

**Additional Information**

Further information may be obtained from the Office of the High School Principal, Room M-101, which is open from 7 o’clock in the morning to 9 o’clock in the evening from Mondays through Fridays. The telephone numbers of the University are 531-80-31 to 531-80-35, the Office of the High School Principal can be reached through Local 18.

Fax No. : 531-6087

DESCRIPTION OF SUBJECTS

DEPARTMENT OF ENGLISH

ENGLISH 11. Grammar and Composition I. This subject is designed for the student to: (a) understand the functions and syntax of parts of speech; (b) gain communicative competence through the improvement of basic learning skills (LSRW); and (c) apply subject-verb agreement.

ENGLISH 12. Reading/Literature I. The subject takes freshmen into the world of adolescence. The selections lead to the understanding of the many facts of personality and enable possible answers to the expressed questions and doubts which adolescents usually experience.

ENGLISH 21. Grammar and Composition II. This deals more on word formation changing sentence form using voice, applying appropriate expressions; proper sequencing of words in sentences and the reinforcement of LSRW.

ENGLISH 22. Speech and Public Speaking/Literature II. The subject deals on the diverse cultures, lifestyles, customs, traditions and ways of our Afro-Asian brothers and sisters which help students recognize the differences and beliefs and the similarities as well. This is expressed by way of enhancing their speaking skills as to – stress, diction, phrasing etc.

ENGLISH 31. Grammar and Composition III. This subject tackles verbals – formation and function, the use of Perfect Tenses and its development and expansion of sentences using modifiers.

ENGLISH 33. Literature III. The subject brings selections of great American and English writers that invite learners to communicate more deeply with themselves; thus, provide insights to help achieve their goals in preparation for greater tasks and more matured roles.

ENGLISH 41. Grammar and Composition IV. This subject is designed to: (a) further develop communication skills through a thorough and functional approach to grammar with particular stress on the effectiveness; (b) identify phrases, clauses and sentences; and (c) recognize
as well as construct sentences with parallel structures. *Prerequisite: applied in all year levels.*

**ENGLISH 43. Literature 4.** The subject presents texts of the famous world writers using the chronological approach based on historical periods. This helps students view and appreciate the monumental sweep of the intellectual, cultural – artistic development of human thought and expression as revealed in literature.

**DEPARTMENT OF MATHEMATICS**

**MATHEMATICS 01. Elementary Algebra with General Mathematics as Introduction (formerly Math 13).** This course deals with the study of Hindu-Arabic system of numeration, four fundamental operations on whole numbers, fractions and decimals, ratio and proportion, percentages, the study of integers, algebraic expressions, equations in one variable, inequalities, factoring and special products, linear equations and rational expressions.

**MATHEMATICS 02. Intermediate Algebra and Statistics.** This course includes the study of real numbers, algebraic expressions, rational expressions, functions and relations, linear operations and function, system of linear equation, special products and factoring and quadratic equations.

The course is a continuation of elementary algebra, factoring quadratic equations, binomial theorem, simultaneous equations of three or more unknown of the second or higher degrees, graphical solutions of simultaneous equations and complex numbers.

In addition, students are also introduced to the study of statistics where the study of characteristics and sources of data, frequency distribution, graphical representation of data and others are highlighted.

**MATHEMATICS 03. Advance Algebra and Geometry.** This course is a continuation of intermediate algebra and it includes the different kinds of functions, binomial theorem, simultaneous equations of three or more unknown of second or higher degrees, graphical solutions of simultaneous equations and complex numbers.
In addition, the students are introduced to the study of geometry which deals with points, lines and planes, angles, triangles, quadrilaterals and circles. Also included are reasoning and proof of congruency of triangles, perpendicularity and parallelism.

**Mathematics 04. Trigonometry and Calculus.** This course covers such topics as generalized trigonometric functions, fundamental trigonometric functions, solution of right triangles and application of trigonometric functions. In addition, the students are introduced to the study of calculus which covers relations and functions, limits and continuity, derivative, maxima and minima of algebraic functions and of indefinite and definite integrals with application.

**Department of Social Studies**

**Social Studies 11. Philippine History and Government.** The subject is a study of Philippine History from pre-Spanish times to contemporary events with due emphasis on our own civilization, law and government. It also gives a comparison and contrast of our historical and cultural heritage from our forbearers to our colonial masters.

**Social Studies 21. Asian History.** The subject provides a historical and cultural background of the different oriental countries. It also gives an impact on Western colonization leading to nationalist and socialist movements and ultimately the struggle to independence.

**Social Studies 31. World History.** The subject provides a vast array of information and history and heritage of people and races. It covers a panoramic view of world events with emphasis on human race.

**Social Studies 41. Economics.** The subject deals with the study of main principles, theories and truths of the complexities of economic life at the international, national, regional community and household levels. It also continues our tradition of looking at economic issues from the viewpoint of total human development.

**Values Education 11.** The subject deals on how man lives with others in a social environment, on what he has as a man and to be able to make use of these abilities and potentials for his welfare and that of others.
It helps an individual to take a close look at this self-image and decide what to do.

**VALUES EDUCATION 21.** The subject provides the student varied learning experiences which will guide him as he continues his journey to know more about himself and discover how he can live in harmony with people in the society in which he lives in.

**DEPARTMENT OF FILIPINO**

Sa mga araling pangwika ay ang mga sumusunod: Makabagong ortografiyang Pilipino, Pangungusap, Parirala, iba’t ibang bahagi ng pananalita; pangngalan, panghalip, pandiwa, pandamdam, pangatnig, pang-uri, pang-abay at pang-ukol. Palabuuan ng mga salita at pagsulat ng komposisyon.

Sa mga araling pangwika, binibigyang diin ang mga sumusunod: wastong gamit ng mga salita, pagkilala sa salita, parirala at sugnay, paglikha ng liham-pangkaibigan. Iba’t ibang bahagi ng pananalita; pangngalan, pang-uri, pangatnig, pandiwa at pang-abay, porpolohiya at mga uri ng
papapahayag; pagsasalaysay, paglalarawan at paglalahad, paglikha ng komposisyon at mga pagsasanay sa kayariang pangwika.

**FILIPINO 41. Wika at Panitikan/El Filibusterismo.** Ang mga tinatalakay ay ang salita, parirala, sugnay, pangungusap, panghalip, pang-uri, pang-abay, pandiwa, pandiwari-diwa at pandiwar-i.

Ang mga uri ng akdang pampanitikan na tinatalakay ay ang mga tula, maikling kwento, sanaysay, editorial, dula, liham at nobelang isinulat ni Dr. Jose Rizal, ang “El Filibusterismo.” Ang mga akdang tinatalakay ay nililinang sa pamamagitan ng mga sumusunod na gawain, “Payamanin ang Talasalitaan,” “Kasanayan sa Pang-unawa/Kasanayang Pampanitikan; Pagpapahalagang Pangkatauhan,” at “Malikhaing Gawain.”

**DEPARTMENT OF SCIENCE**

**SCIENCE AND TECHNOLOGY 11. General Science.** Science and Technology 11 is not an alien world reserved only for experts, academicians and scientists. Everyone can make Science and Technology work for them by reading, doing, experimenting, and researching and simply by asking. It is also a meaningful tool to shape an individual’s destiny, as a useful individual in this planet.

Science and Technology 11 is a course that introduces subjects that will be taken up in later years. It deals with Biology, Physics, Chemistry, Geology, Ecology and Astronomy. It is a course that should not be dealt
with separately from other concerns like the environment, because Science and Technology touches every part of our being.

**SCIENCE AND TECHNOLOGY 21. Biology.** Science and Technology 21 is a subject in second-year high school. It involves the study of living organisms including people, their structures and functions, interaction with other organisms and with their environment.

The subject also includes the study of technology, which applies biological principles in order to make life better for all people. With the great impact of technology on mankind, individually and as a society, several issues on health and nutrition, population, food production, environmental sanitation and environmental management are also part of the subject discussion.

Furthermore, the subject also develops the following values: respect for life, spirit of sharing and concern for other people and living organisms in general.

As a summary, Biology is a subject that will be discussed as a science, technology and as a society.

**SCIENCE AND TECHNOLOGY 31. Chemistry.** This is for students with no previous background in Chemistry. The emphasis is on the fundamental, basic concepts and principles of the said subject. All topics necessary for an understanding of the various concepts are included. It covers the following topics:

- Introduction to the study of Chemistry
- Measurement and mathematical operations
- Changes, classification and properties of matter
- The structure of the atom
- Important features of the Periodic Table
- Chemical bonding
- Chemical equations and reactions
- Stoichiometry – calculations based on formulas and equations
- Different gas laws
- Solutions and colloids
- Acids and bases
• Introduction to Organic Chemistry

Activities and experiments are included to make the students apply the concepts further for more meaningful learning.

**SCIENCE AND TECHNOLOGY** 41. Physics. Physics is the study of matter, force and energy.

Because more physical science concepts are now introduced in the elementary grades, qualitative materials, which serve as an introduction, have been minimized; instead the quantitative phase has been emphasized and developed. As much as possible the concept of energy was used to unite other branches of Science.

It is necessary that the students understand the importance of Physics. Otherwise, he will never acquire the proper “feel” for the relationships; hence, the formulas.

In-depth understanding of Physics eliminates the misconception that the subject is just a collection of formulas and problems. Scientific mind and good attitudes lead the students to conquer the mystery of the subject.

The subject also clarifies the distinction between remembering and memorization in the learning process.

No doubt that Physics is a realm of exploration, understanding the mysteries of nature, and explaining various phenomena. It aims to explain those phenomena in terms of fundamental laws.

**DEPARTMENT OF BUSINESS TECHNOLOGY (BT)/PEHM**

PEHM 1. Physical Education, Health and Music. The subject provides the students a chance to build strong and healthy bodies and good health habits that will last for a lifetime. It also gives opportunity to be survivors in this modern age through study and observation of selves and their environment, mobilize all their resources-intellectual, emotional and physical for optimum living and be a part in building a community as well as a country that is worth living.

PEHM 2. Physical Education, Health and Music 2. The subjects help the students to cope up with the daily task that stands as a guide in developing physical, mental and emotional traits.

P.E.: Students develop individual physical fitness, identity and correlate the different, activities, determine one’s physical fitness status. Through dances, students appreciate the beauty of dancing, express their joys and sorrows as well as their ideals and aspirations in life. Be familiar with dual and individual sports.

Health: Learn the effects of prohibited drugs, the risk and effects of smoking, different non and communicable diseases, medicinal plants, population education and First Aid.

PEHM 3. Physical Education, Health and Music. PEHM 3 plays an important role in the development of a wholistic personality. In PE, traditional and modern subjects such as Physical Fitness, Asian Dance, Sepak Takraw and sports officiating are taken up. Health Education provides knowledge on Mental and Emotional Health, Consumer’s Health and Protection, Drug and Population Education. Music deals with vocal music, Philippine Ethnic instruments, Asian Music and Arts.

PEHM 4. Physical Education, Health and Music. PEHM showcase the fitness program that will give a better perspective of achieving desired physical activities. The curriculum also give a wide understanding about health, music and safe and effective physical activities.

BUSINESS TECHNOLOGY 01. Home Economics. Technology and Home Economics 1 is intended to develop knowledge and skills, values and attitudes that will prepare the learner for entry into the work. Thus, classroom and practical work experiences are provided that will enable the students to gain understanding of and acquire competencies in various economic activities as they relate to the four major component areas,
namely: Home Economics, Food and Applied Nutrition, Industrial Arts and Entrepreneurship and Introduction to Computer. These are offered as exploratory program for both boys and girls.

- Home Economics covers home and family living, housing and family economics and basic clothing.
- Food and Applied Nutrition deals with the study of basic principles of good nutrition, its significance, and preparation of snacks and dishes for all occasions. To reinforce the discussion, fundamentals of Agriculture and Fishery Arts are also included.
- Introduction to Computer focuses on the history and development of computer and fundamentals of computing. It covers areas of computer use, classification of computers and their elements. Students are also exposed to open office impress which is the program used in computer aided-instruction.

**BUSINESS TECHNOLOGY 02. Micro-text Processing.** Business Technology 2 covers the basic principles in manipulating the typewriter correctly. But instead of typewriter we used computer in gaining the basic skills in typing. In addition, it consists of the correct formatting and typing business correspondences such memoranda and the like.

The subject also focused on stenography which help the students in taking notes. It also covers medicine and legal transcription which will help them in the future. Aside from that, the subject includes word processing, file management, text effects, etc. and business letters.

**BUSINESS TECHNOLOGY 03. Computer Science.** With the advent of information and communications technology, it is necessary to equip students relevant knowledge and technical skills on computers. This is the primary concern of the subject to offer internet essentials, the worldwide web, Net principles, graphics presentation software, webpage design, and basic programming.

It concentrates on the promotion of students ability in accessing the net, preparing graphics presentations and webpages, and basic
programming. As the subject does it, it also inculcates the ethics of computer use.

The subject also focused on visual basic which will guide the students in making their own games, calculator, and the like.

**BUSINESS TECHNOLOGY 4. Basic Accounting for Service and Merchandising Business and Electronic Accounting.** Technology and Home Economics 4 covers the fundamental principles, guidelines, processes and systems of manual accounting as applied in the service and merchandising businesses. The subject also nurtures the students' skills in completing the accounting cycle, with the help of computers through spreadsheets.

Furthermore, the subject upgrades the students' learning competencies and prepares them for possible employment as soon as they finish high school.
IMPORTANT

Parents are expected to be
familiar with the contents of this
General Information, and to
abide by all the policies and procedures
